

**Yellow Sea Rim Workshop on Explosion, Combustion  
and Other Energetic Phenomena for Various  
Environmental Issues**

**YSR 2020**

March 7 (Sat) and 8 (Sun), 2020

Kurokami Campus, Kumamoto University, Kumamoto, Japan

**Organizers;**

Shuichi Torii, Graduate School of Science and Technology, Kumamoto University

Kazuyuki Hokamoto, Institute of Pulsed Power Science, Kumamoto University

Nam II Kim, Department of Mechanical Engineering, KAIST

**Organized by;**

Kumamoto University Liaison Office at KAIST

Institute of Pulsed Power Science, Kumamoto University

Institute of Shockwave Applied Technology

KAIST and Kumamoto University have signed the agreement for academic exchanges since 2006 and have been developed friendship between the two institutions. The YSR meetings have been organized as to demonstrate and exchange the activities in the field related to explosion, combustion and other energetic phenomena for environmental issues. The present Workshop consists of some invited lectures and contributed poster presentations. Hope to have many contributions to deliver poster presentations. Please send 1-3 pages abstract to the corresponding e-mail, which includes the title, author(s) with the affiliation(s) followed by the abstract no later than Feb 21, 2020. Students are encouraged to be selected for Young Scientist Award through selection.

**Corresponding address sending abstracts**

Prof. K. Hokamoto, Institute of Pulsed Power Science, Kumamoto University
